

## New Fog

## Other Lives

There's new fog on its way  
And we forget about the day  
There is a sun on the ground  
It won't be long 'til it [?]

Now I never wait 'til the sun  
Now I never wait at all

There is a sound of note decay  
And it's been happening any way  
Coming from we can not see  
It won't be long 'til it [?]

Now I never wait 'til the sun  
Now I never wait at all  
I never wait at all  
I never wait at all

Now I never wait at all
