

Reconfiguration

Other Lives

I won't fear my rivals
Leave them in the silence
I live in the present
Moment to moment
Moment to moment
I don't fear no future
Come live on in silence
I live in the present
Moment to moment
Moment to moment
Moment to moment

Fears i got all messed up
Tearing of and on next to mine
Fears i got always done
It's re-e-e-e-e-configuration
It's re-e-e-e-e-configuration

Everything's standing out like its wants to feels like i've been here
before
Everything's standing out like a loss and feels like i've been

I won't fear my babbles
Leave them in the silence
I live in the present
Moment to moment
Moment to moment
I won't fear no future
Come live on in silence
I live in the present
Moment to moment
Moment to moment
Moment to moment

Fears I got, all messed up
Tearing of and on next to mine
Fears I got always done
It's re-e-e-e-e-configuration
It's re-e-e-e-e-configuration

All my senses become acute
In it, defects, in pursuit
Fix piling
From the thrill I
From the thrill I
From the thrill I had
Fix down from the thrill I had
