

Take Us Alive

Other Lives

Oh, I've seen the coming of a storm
Certain on the day
Something to believe in
Miles in the north, to us in the eye
Keep your eyes open, keep your eyes open
We're trying so hard just to make it in the day
But don't you worry my friends

Cause they'll never take us alive
Oh, they'll never take us alive
Never take us alive
Oh, they'll never take us

Oh, I've seen the morning make the night seem long
Certain on the day, longer to stand
Miles in the north, to us in the eyes
Keep your eyes open, keep your eyes open
We're trying so hard just to make it in the day
But don't you worry my friends

Cause they'll never take us alive
Oh, they'll never take us alive
Never take us alive
Oh, they'll never take us

We've been here before and I'm so lonely
But it's alright here
And have you gone to [?]
But it's alright here

Cause they'll never take us alive
Oh, they'll never take us alive
Never take us alive
Oh, they'll never take us

We've been here before and I'm so lonely
But it's alright here
And have you gone to [?]
But it's alright here

Cause they'll never take us alive
Oh, they'll never take us alive
