

## Bad Trip

Otherwise

We're all in the same sinking ship  
I been feeling it start to slip  
Like a bad trip, you don't know till it hits  
So lose yourself on my fingertips  
One day we're gonna have to run real fast  
From the sins of our past  
We took way too much, way too fast

Might as well just throw ya hands up  
Just throw ya hands up  
Just throw ya hands up  
Might as well just throw ya hands up  
Just throw ya hands up  
Just throw ya hands up

So let's dance with the demons  
Don't fight the feeling  
Just turn out the lights, it feels so right  
This madness, madness  
So let's dance with the demons  
Don't fight the feeling  
You know there's no end in sight  
But, baby, if we hold on tight  
We can make it through this bad trip

So come with me  
Let's run to the sun, you, me  
And a smoking gun, it's a bad trip  
And now we're so deep in it  
Star-crossed lovers  
In a neon wasteland  
The end is coming now  
So don't look back

Might as well just throw ya hands up  
Just throw ya hands up  
Just throw ya hands up  
Might as well just throw ya hands up  
Just throw ya hands up  
Just throw ya hands up

So let's dance with the demons  
Don't fight the feeling  
Just turn out the lights, it feels so right  
This madness, madness  
So let's dance with the demons  
Don't fight the feeling  
You know there's no end in sight  
But, baby, if we hold on tight  
We can make it through this bad trip

So lay back  
Way back  
There's nothing we can  
Nothing that we can do now  
So lay back  
(Let's ride this out)

Way back  
(We'll ride it out)  
There's nothing we can  
Nothing that we can do now

So let's dance with the demons  
Don't fight the feeling  
Just turn out the lights, it feels so right  
This madness, madness  
So let's dance with the demons  
Don't fight the feeling  
You know there's no end in sight  
But, baby, if we hold on tight  
We can make it through this bad trip
