

Bloodline Lullaby

Otherwise

Never worry, child, everything's alright
It may take awhile to see the good life
I'm right here with you, always true

So don't say goodbye
I'll see you soon
Another day, another moon

Any time you're feeling lonely
Just listen to the wind, you'll hear me
Sing your song across the sky
This is our bloodline lullaby
I can't wait to let you know me
I'm sure you have so much to show me
As we're walking side by side
This is our bloodline lullaby

Crazy as it seems, love in the spotlight
Chasing out a dream, living through fault line
You are all I need, you're my everything
Counting down the hours, so how the time flies
Running the miracle mile, crossing the state lines
I'm right here with you, always true

So don't say goodbye
I'll see you soon
Another day, another moon

Any time you're feeling lonely
Just listen to the wind, you'll hear me
Sing your song across the sky
This is our bloodline lullaby
I can't wait to let you know me
I'm sure you have so much to show me
As we're walking side by side
This is our bloodline lullaby

And no matter where you are
You can find me out among the stars
This is our bloodline lullaby

I'm here with you
And I'm here with you
You know I'm never far away

I can feel you next to me

Any time you're feeling lonely
Just listen to the wind, you'll hear me
Sing your song across the sky
This is our bloodline lullaby
I can't wait to let you know me
I'm sure you have so much to show me
As we're walking side by side
This is our bloodline lullaby

And no matter where you are

You can find me out among the stars
This is our bloodline lullaby
