

Crossfire

Otherwise

(Crossfire, -fire
-fire, -fire
-fire
-fire, crossfire, -fire)

No, you're not gonna waste my time
No, you're not gonna change my mind
No, I'm not your bottom line
This runs deeper than dollar signs
Every deal the with the devil's the same
They all want credit but nobody takes blame
Dark money games
Sellin' me the same ol' lie with a different name

Same shit, different day
This tired old song is so overplayed
From New York City back to L.A.
Welcome to the masquerade, eh

I'm caught in the...

I'm caught in the crossfire
Dancin' on a tripwire
Throwin' up a toast to the end of the world
Preachin' to a deaf choir
Everyone's a damn liar
Better keep your hopes high and head down low
In the crossfire

Now you want me to change my name
Now you want me to change my face
Now you want me to learn my place
But I'd rather learn from my mistakes

Gotta fight just to tell the truth
Gotta steal just to make it new
I never knew, it takes a hit
To find out you're bulletproof

I'm caught in the...

I'm caught in the crossfire
Dancin' on a tripwire
Throwin' up a toast to the end of the world
Preachin' to a deaf choir
Everyone's a damn liar
Better keep your hopes high and head down low
In the crossfire

Past the point, no return
I'm caught in the crossfire
Watching all bridges burn
I'm caught in the crossfire

So what do ya do?!
Come on and tell me!
So what do ya do?!

Come on and tell me!

I'm caught in the...

I'm caught in the crossfire
Dancin' on a tripwire
Throwin' up a toast to the end of the world
Preachin' to a deaf choir
Everyone's a damn liar
Better keep your hopes high and head down low
In the crossfire

(Crossfire, crossfire
Crossfire, crossfire)
Better keep your hopes high and head down low
In the crossfire
(Crossfire, crossfire
Crossfire, crossfire)
Crossfire
In the crossfire
