

Good Fight

Otherwise

I know at times that it feels so wrong
For me to be gone so long
But I know one day you'll see
What it takes to make history
I know in time ya gonna understand
The grand design, the masterplan
Do what it takes to make you believe
Until you do, have faith in me

Gotta live life loud
Stand out from the crowd
I wanna burn it down
I wanna make you
Make you proud

I wanna win for you
I wanna sing for you
I wanna take 'em on and step inside the ring for you
I wanna show you what's right
To fight, to fight, to fight

Fight the good fight (fight the good fight)
So fight
Fight the good fight (fight the good fight)

You know I'll always come back to you
In this life, and the next one, too
I'm down for you till the day I die
Carry on for you like a bloodline lullaby

Please, please, please believe me
This is all for you
All for you, now

Gotta live life loud
Stand out from the crowd
I wanna burn it down
I wanna make you
Make you proud

I wanna win for you
I wanna sing for you
I wanna take 'em on and step inside the ring for you
I wanna show you what's right
To fight, to fight, to fight
To fight, to fight, to fight (to fight)

I know at times that it feels so wrong
For me to be gone so long
You know I'll always come back to you
You know I'll always come back to you
(Please, believe me
Please, believe me)
You know I'll always come back to you

I wanna win for you
I wanna sing for you

I wanna take 'em on and step inside the ring for you
I wanna show you what's right
To fight, to fight, to fight
I wanna win for you
I wanna sing for you
I wanna take 'em on and step inside the ring for you
I wanna show you what's right
To fight, to fight, to fight
