

# Meet Me In The Dark

Otherwise

Meet me in the dark, I'll take you down  
Close your eyes to see, I'll show you how  
Everything you've known is broken now  
Silencing the screams you heard so loud  
(Screams you heard so loud)

I believe the shadows breath  
With bloodshot eyes & sharpened teeth  
So walk with me...

Meet me in the dark, I'll take you down  
Let me in so I can break you out  
Don't be scared it's right where we belong  
We belong, we the strong  
Meet me in the dark  
(Meet me in the dark)

I thought you knew me better  
Here comes the underdog  
Watch as the lowly peasant  
Becomes the alpha-dog

I believe the shadows breathe  
With bloodshot eyes & sharpened teeth  
So walk with me...

Meet me in the dark, I'll take you down  
Let me in so I can break you out  
Don't be scared it's right where we belong  
We belong, we the strong  
Meet me in the dark

I believe the shadows breathe  
With bloodshot eyes& sharpened teeth  
So walk with me...

Meet me in the dark, I'll take you down  
Let me in so I can break you out  
Don't be scared it's right where we belong  
We belong, we the strong  
Meet me in the dark  
Meet me in the dark  
Meet me in the dark  
Meet me in the dark  
Meet me in the...
