

Lighting the port of hell horse
Ignite the skies in praise of den
Red, white, and blue has run its course
As our lady peace takes the dying breath

Carry the cross you always sway
Bury the lost in shadow bay
Burning the flag as you sing (burning the flag as you sing)
Earning the cross not worth its way

And now you're drowning in the waters arise
To wash away your life, and you don't understand
Why you're running by the lavish demise
In a city of the damned
And your only hope slips through your fingers as you die
The ruins of your life are by scarred by frontal blood

Fighting the end and begin!

Carry the cross you always sway
Bury the lost in shadow bay
Burning the flag as you sing (burning the flag as you sing)
Earning the cross not worth its way

When you hear the wounded start to cry
I never thunder in the night

Carry the cross you always sway
Bury the lost in shadow bay
Burning the flag as you sing (burning the flag as you sing)
Earning the cross not worth its way
