

Trapped

Otherwise

I feel like something is wrong
Deep in my soul
Searching for one perfect song
While losing control
And even though I don't believe in your god
Why do I pray?
I never thought breathing could be so hard
Can I be saved?

Am I alive or am I nearly dead?
I've been trapped in my head
I don't wanna fall behind, I need peace of mind
I've been trying to find myself
I've been meaning to find myself

I've lost my faith in the world
A world I despise
When even the smile from a girl is tainted by lies
And I don't know nothing about who I am, inly because
I feel like I'm only half of the man I never was

Am I alive or am I nearly dead?
I've been trapped in my head
I don't wanna lose my mind, I don't wanna fall in line
I've been trying to find my, find myself

Can you save me from myself?
Dead, I've been trapped in my head

Yeah, I've been trapped in my head
I don't wanna lose my mind, I don't wanna fall in line
I've been trying to find my...
Find myself inside this sheltered person that used to be...
(Who are you to me?) Used to be me!
