I cram to understand why a woman and a man
Make a plan to enter matrimony then he takes her hand
Put that ring on her finger couple of kids in minivans
Standin in the stands like a fan watch her little man
Run ball... And everytime you see the family they look happy
Got her mama and her daddy and I think they got a lil' dog
But daddy had her cat on the side
He would hide her from his ride decide not to divide
Kept the yam in the (hide) the spouse in the house
Boy its cheaper to keep her you fuck around and take a loss
Come up short like Short Dog cuss words flow like
(Motherfuckaer shit gotdamn asshole)
Took my shit (Beeitch!) FUCK!
