

North Pole Man

Over the Rhine

North Pole man
Come in from the cold
North Pole man
It's gettin' old

Cold hands, cold feet
Darn snow, darn sleet
It takes good friction
To make good heat

North Pole man
Come out of the storm
North Pole man
Gotta get you warm

Hot rum, steam heat
My lips taste sweet
I got warm cookin'
Spread the table, take a seat

North Pole man
Can you afford to?
You outta come here
Come south of the border

Come down real slow
It's warm down below
It takes perspiration
To melt the snow
