

Never Said It Was Easy

Palace

The pain that Ive found
I wonder if it slows where Im bound
The pain that Ive found
I wonder if it slows where Im bound
Its a strange life that shapes me
Breathe deep on old memories
I was the blonde child with the milk skin
I had bad lungs they said was way too thin
At fourteen I was terrified
I wanted guts but then my stomach died
I was 24 when I saw the truth

That love burns
You said itd be easy
You said itd be easy
I never said it was easy
The pain that Ive found
I wonder if it slows where Im bound
The pain that Ive found (You said itd be easy)
It slows where Im bound (You said it was easy)
The pain that Ive found
It slows where Im bound
