

# Crazy=Genius

## Panic! at the Disco

You can set yourself on fire  
You can set yourself on fire

She said at night in my dreams  
You dance on a tightrope of weird  
Oh but when I wake up  
You're so normal that you just disappear  
You're so straight like commuters  
With briefcases towing the line  
There's no residue of a torturer  
Inside of your eyes

She said you're just like Mike Love  
But you wanna be Brian Wilson, Brian Wilson  
She said you're just like Mike Love  
But you'll never be Brian Wilson

And I said

**Dm**

Hey ay ay, hey ay

**F**

If crazy equals genius

**B**

Hey ay ay, hey ay

**A7**

If crazy equals genius

**Dm**

Then I'm a fucking arsonist

**F**

I'm a rocket scientist

**B**

Hey ay ay

**A7**

If crazy equals genius

**C**

**B A7**

You can set yourself on fire

**C**

**B**

But you're never gonna burn, burn,

**A7**

burn

**C**

**B A7**

You can set yourself on fire

**F**

**B**

But you're never gonna learn, learn,

**A7**

learn

Hey!

She said, "Darlin', you know  
How the wine plays tricks on my tongue  
But you don't seem to change  
When you stuff all of your feelings with drugs"  
Other boys you may have dated  
Serrated your heart with a slice  
But the cut of your love never hurts  
Baby, it's a sweet butter knife

She said you're just like Mike Love  
But you wanna be Brian Wilson, Brian Wilson  
She said you're just like Mike Love  
But you'll never be Dennis Wilson

And I said  
Hey ay ay, hey ay  
If crazy equals genius  
Hey ay ay, hey ay  
If crazy equals genius  
Then I'm a fucking arsonist  
I'm a rocket scientist  
Hey ay ay  
If crazy equals genius

You can set yourself on fire  
But you're never gonna burn, burn, burn  
You can set yourself on fire  
But you're never gonna learn, learn, learn  
Hey!

You can set yourself on fire  
You can set yourself on fire  
You can set yourself on fire  
You can set yourself on fire

And I said  
Hey ay ay, hey ay  
If crazy equals genius  
Hey ay ay, hey ay  
If crazy equals genius  
Then I'm a fucking arsonist  
I'm a rocket scientist  
Hey ay ay  
If crazy equals genius

You can set yourself on fire  
But you're never gonna burn, burn, burn  
You can set yourself on fire  
But you're never gonna learn, learn, learn  
Hey!
