

# Top of the World

Papa Roach

On top of the world, we're never coming down  
We're taller than giants  
(Bruh)  
(Can you feel it now?)

I scratch the surface of the truth till my hands bleed  
Rub my hands on my face, get my face red  
War paint, more pain, I'm a war head  
Fake news, fake truth, that was unfair  
I'm spinning in my head, can believe nothing  
I'm digging to the bottom till I feel something  
If you're gonna buy the lie, then you got nothing  
Better wave the white flag, there's a storm coming

This is for the dreamers, the believers  
Put a noose around the neck of the deceiver  
This is for the dreamers, the believers  
And we're never gonna stop, till we're dead

On top of the world, we're never coming down  
We're taller than giants  
On top of the world, they wanna take us down  
We're taller than giants

(Uh, wassup?)  
(When we feel it kicking, yeah)

Yeah, I'm a broken mad man on a mission  
And to question every lie is my addiction  
When you steppin' out of line, they call you vicious  
If the truth was in the fire, would you jump in and risk it?  
Start somethin', say somethin', be somethin', what?  
Breathe fire, wildfire, yeah, we fire it up  
No, I don't think that I could take any more  
No, I don't think that I could take it no more

This is for the dreamers, the believers  
Put a noose around the neck of the deceiver  
This is for the dreamers, the believers  
And we're never gonna stop, till we're dead

On top of the world, we're never coming down  
We're taller than giants  
On top of the world, they wanna take us down  
We're taller than giants

(Oh)  
(Oh)

Head up to the sky when you wear the crown  
Nobody, no soul that could take you down  
Head out to the sky, don't feel the ground  
Nobody, no soul that could take you down  
(Oh, that could take you down)  
(They'll never take you down)  
(Down, uh)

On top of the world, we're never coming down  
We're taller than giants

On top of the world, we're never coming down  
We're taller than giants (Taller than giants)  
On top of the world, they wanna take us down  
We're taller than giants

We're on top of the world  
Top of the world  
We're on top of the world  
Top of the world  
We're on top of the
