

# You Kill Me

## Paper Route

Hold your head up dear  
I'm the one who's wounded here  
But I love you still the same

There's patterns on the floor  
But I can't look at you any more  
That's when you look at me

You pull me down underneath  
And my air, I can't breath  
I can't sleep , I can't dream  
And I can't stop loving you, kill me

30 years down in flames  
I gave my heart , I took a name  
Took a chance , took a ring  
I can't stop loving you, kill me

I close my eyes and say  
This can not be happening  
Am I the one to blame?

When we rang the wedding bells  
Should we have left with someone else?  
Is that what you really need?  
Is that what you really need?

You pull me down underneath  
And my air, I can't breath  
I can't sleep , I can't dream  
And I can't stop loving you, kill me

30 years down in flames  
I gave my heart , I took a name  
Took a chance, took a ring  
I can't stop loving you, kill me

Everything I've been  
Everything I am  
My heart's the same as yours  
I love you the same

Everything I've been  
Everything I am  
My hearts the same as yours  
I love you the...

(I love you the same)  
(I love you the same)  
(I love you the same)

Everything I been  
Everything I am  
My hearts the same yours  
I love you the same
