## **Never Wanna Leave You**

**Pat Benatar** 

Never could say what I wanna say Never could do what I wanna do Never could believe you, if it's true Never could, never would, you make it so hard I never wanna leave you

I'm always right, you're never wrong
We change the tune but not the song
Over and over
'Til it's done, it's never done, never done
You make it so hard
Never wanna leave you
I never wanna leave you

Movin' together, comin' apart You're what I need, I'm what you want Never could refuse you from the start Never could, never would, never could You make it so hard

Never could say what I wanna say Never could do what I wanna do Never could believe you, if it's true Never could, never would, you make it so hard

I never wanna leave you I never wanna leave you I never wanna leave you Never wanna leave you I never wanna leave you
