

# War

Paty Cantú

[Paty]

I see you in the hallway  
I hear you smash the door  
All this broken china  
Just lying on the floor  
The moment that you're done  
I feel so sad, I feel so alone

[Bea]

And when the fight is over  
I still regret my hurt  
All I do is miss you  
I guess I'll never learn  
You and me are so damn proud  
Sorry, is hard to say out loud

[Paty]

War, when we go to war  
Can't do this anymore  
Waving flags just running mad and breaking bad, it's war  
Life is getting sour  
When we go to war

[Bea]

War when we go to war  
What's it good for?  
All the pain is for no gain and who's to blame in war?  
Can't do this anymore  
When we go to war  
When we go to war

And when you come back home  
And play yourself defense  
Things start building up  
And nothing's making sense

[Paty]

You know deep inside this scars  
Are tearing up our hearts

[Bea]

War, when we go to war  
Can't do this anymore  
Waving flags just running mad and breaking bad, it's war  
Life is getting sour  
When we go to war

[Paty]

War when we go to war  
What's it good for?  
All the pain is for no gain and who's to blame in war?  
Can't do this anymore  
When we go to war  
When we go to war

[Bea]

Let's make a deal right here and now

No more grenades just stop the fight

[Paty]

Cause all this war is such a waste

And all we do is fall from grace and what we have is strong

[Paty & Bea]

Let's wave the white flag

Let's wave the white flag

Let's wave the white flag

Let's wave the white flag

[Bea]

Vuelve

[Paty]

Vuelve por este amor Valiente

No hay nada que no enfrente

La guerra es contra comprender que sólo somos gente

Que ama y que miente

Perdóname mi amor

Perdóname mi amor

It's war

[Bea]

War, when we go to war

Can't do this anymore

Waving flags just running mad and breaking bad, it's war

Life is getting sour

When we go to war

[Paty]

Let's wave the white flag

[Bea]

Vuelve
