

# We Come to You Jesus

Paul Baloche

With us in our weakness You are strong  
Though we feel unworthy we belong  
There is no fear, there is no fear

Even in our chaos You are calm  
You are bringing peace into our storm  
We are safe here, all are safe here

We come to You now  
The best we know how  
We come to You Jesus  
We come to You Jesus  
Just as we are  
We bring You our hearts  
We come to You Jesus  
We come to You Jesus

We know that Your arms are open wide  
There is not a reason we should hide  
There is grace here, there is grace here

We have found forgiveness at the cross  
Where Your blood and mercy covers us  
Christ our Savior, Christ our Savior

There's no other name by which we're saved  
Only Jesus  
No other love can take Your place  
Only Jesus
