

Life in a Bubble

Paul Carrack

Living in a bubble
Trying to ignore the pain
Every night you wonder
Will you ever feel the same again

Summoning the courage
Just to face another day
Your nights so long and lonely
Keeping demons at bay

Living life in a bubble
Trouble in paradise again

Turn on the TV
Turmoil and trouble everywhere
So many people
Living lives full of despair

You worry for the future
What kind of world we gonna leave
But no one's got an answer
Who on earth would we believe

Living life in a bubble
There's trouble in paradise again

You cried so many tears you'd think
The well must soon run dry
You can't accept the love you lost
No matter how hard you try

Living life in a bubble
There's trouble in paradise again

Your first world problems
Accumulate inside your mind
Hiding reality
That you try to leave behind

Your weary conscience
Has behind a troubled front
Draw all the curtains
Lock the door and pull the shutters down

Living life in a bubble
Trouble in paradise again
Living life in a bubble
There'll be trouble in paradise again
