## **Gathering Storm**

I had a dream I saw you walking down the road In a gathering storm

Wind on the rise A black crow was flying You alone in a gathering storm

I wake up alone in my bed There's nothing before my eyes And outside the door Only the sighing And you out there in a gathering storm

So cover your head Keep your eyes open Make speed in the gathering storm

I rise up and turn on the light Now it's shining in my window My walls are strong My chimney's smoking God speed you In the gathering storm **Paul Kelly**
