

# I've Been A Fool

Paul Kelly

So you want a second chance  
You want to start again, make everything alright  
But I want to know if you've changed this time  
Baby don't lie, don't you lie to me  
What do you take me for?  
I've been a fool, anyone can see  
But I'll be your fool no more

You've got a way of talking  
You could sell a poor man a bottle of air  
But I want to know if you've changed at all  
Baby don't lie, don't you lie to me  
I've heard it all before  
I've been a fool, most definitely  
But I'll be your fool no more

Everybody loves you, I still love you  
I want you back, I need you now  
But I want to know  
Have you changed your spots at all?  
Baby don't lie, baby don't lie  
I've been a fool, I've been a fool
