

True To You

Paul Kelly

Mount Everest may tumble
The Taj Mahal crumble
Whatever the rumble
I'll be true to you

Let Hell freeze over
And the white cliffs of Dover
Fall into the ocean
I'll always be true to you

The hurtling days bring the sun, wind and rain
But our love will live through the hurt and the heat and the hurricane

Just like the Parthenon
Under the stars and sun
We'll keep on keepin' on
'Cause I'm true to you

I wrote our love down and I made it a song
So our love will stay when we both have to say "So long!"

Just like the Parthenon
Keeps on just keepin' on
Our love will always run
'Cause I'm true to you
Yes, I'm true to you
True to you
