

# Really Love You

Paul McCartney

Well I need you  
Through the night  
When morning comes  
I love the light  
But in the night-time  
That dark is black  
Come on baby  
You got to help me get back

I love you, oh yeah  
I really love you, oh yeah

Do one thing  
Do one thing for me  
If you've got love  
Then let me see

If you feel it in your heart  
Then show it right now  
You know I love you baby  
I gotta get to you, get to you somehow

Oh yeah, I really love you  
Oh yeah, I really love you  
You know it's true

I really love you  
Day and night  
Yeah, I really love you  
In the morning light  
I really love you  
Sure be right  
Come on little baby  
Gotta find out find out somehow

Yeah, yeah, really love you  
Oh yeah, really love you

I love the things  
You say and do  
I can't get over  
How much I love you

You know you do something  
Special to me  
And that's the way  
I want it always to be, yeah

Oh yeah, really love you  
Oh yeah, I really love you

I need your love  
Like a bear needs a break  
I need your heart, baby  
Hopping on a plate  
I need the sunshine  
Of your smile

Help me walk  
Help me walk that extra mile

Little baby, I love you  
Oh yeah, you know I really love you  
Oh yeah, you know it's true  
Oh yeah, I love you

I love you
