

I Still Love You

Paul Stanley

You tell me that you're leaving,
and I'm trying to understand
I had myself believing
I could take it like a man
But if you gotta go, then you gotta know
that it's killing me

And all the things I never seem to show,
I gotta make you see.

Girl it's been so long,
(Now tell me) tell me how could it be,
One of us knows the two of us don't belong
in each others company,
It hurts so much inside, your telling me goodbye,
you wanna be free,
And knowin' that you're gone and leavin' me behind,
I gotta make you see, I gotta make you see, I gotta make you see.

I still love you, I still love you,
I really, I really love you, I still love you.

(Guitar Solo)

People tell me,
I should win at any cost,
But now I see as the smoke clears away,
the battle has been lost, lost!!

I see it in your eyes, you never have to lie, I'm out of your life,
Tonight I'll dream away and you can still be mine,
But I'm dreamin' a lie, dreamin' a lie, makes me wanna die.

'Cause I still love you, I still love you,
Baby, baby I love you, I still love you.

(Guitar Solo)

And when I think of all the things you'll never know,
There's so much left to say,
'Cos girl, now I see the price of losing you will be my hell to pay,
My hell to pay, each and every day, hear what I say...

I still love you, I still love you
I really, I really love you, I still love you
Baby, baby, baby, baby, I love you, I love you, I really, I really love you
