

# Long Long Road

Paul Weller

In the times too far to view  
In the places I once knew  
And every footstep that I've taken  
Was just one step I took to you

In strangers passing by  
To the castles in my eyes  
And in the busy streets and markets  
Where I look baby, I look for you

Ohh

And I know it's a long long road  
That we walk together but as one  
There's no longer two  
Oh, me and you  
When the road gets rough  
We gotta pull together  
Ooh-oohh  
Ooh-oohh  
Ooh-oohh-oohh

When the time no longer sides  
There'll be choices I won't decide  
And when that time comes  
I'll go through it  
With what I've learned baby  
From loving you  
Ohh, ooh

There's so many roads that you can go down  
So many lonely lives can be found  
Many lead nowhere  
And I had my share  
An' that lonely life just ain't that good  
Yes I know  
(Yes I know, Yes I know  
It's a long long road  
That we walk together  
But as one)

Yes I know  
(Yes I know, Yes I know)  
It's a long long road  
(It's a long long road)  
That we walk together  
(That we walk together)  
But as one  
(But as one)

An' that lonely life just ain't that good  
Yes I know  
(Yes I know, Yes I know  
It's a long long road  
That we walk together  
But as one)

Yes I know  
(Yes I know, Yes I know)  
It's a long long road  
(It's a long long road)  
That we walk together  
(That we walk together)  
But as one  
(But as one)
