

Our Time Has Come

Paul Young

So close but yet so far
Not close enough to touch
I want to take the knocks and bear the scars
I need to have you so much
Oh my heart's desire
Will soon be in my reach
Our time has come
As it is written in the sand
Our time has come
I can feel your power and it seems to guide my hand
You belong to me
Our time has come
Every step I take to you
I reach beyond myself
I know I'll find the strength I need
To get me through this hell
This hour is all on me
I never let you go
Our time has come
As it is written in the sand
Our time has come
I can feel your power as it seems to guide my hand
You belong to me
Our time has come
When I found it hard
I reach my goal
Never break my will
Never break my soul I try
But I've got my taste
And I've got the power
I've been broken every waking hour
I try
Our time has come
This hour is all on me
I'll never let you down
Our time has come
Our time has come
As it is written in the sand
Our time has come
I can feel your power as it's seems to guide my hand
You belong to me
Our time has come
I can feel your power, just taking me by the hand
You belong to me
