

Black Sheep

Pay money To my Pain

Many times I pray for you
But you never agree with me
I'm so torn cause you never hear me scream
I've got nothing left to say
I'm the slave trapped in black sheep clothing within the son you
knew
You try to control, hold me under but I do just what I do

Jesus made the world
Jesus in just one day
Jesus you take away
Cause we don't even see or feel you
We only want to free the real you Christ

Is this the world we have created
So much death for no reason
My eyes open the cages and doors of religion and war

Holy war it means nothing to me

Holy war the mean's nothing
Holy war just make more soldiers
Holy war just make more shadows

Jesus took away
Jesus did this for you
Jesus is not for me
Cause we don't even see or feel you
We only want to free the real you Christ
