

# After You

Peabo Bryson

Sleepless nights, I don't know left from right  
Some people say that's the power of love  
Chained and bound, I don't know up from down  
I spend every day, every hour watching you

You are the love I never knew  
Well, it's true  
I never knew I could love, 'til you  
You are the one who made see  
Made me believe  
I'm telling you now  
There is no love after loving you, you  
After you

Lost in time, your body close to mine  
The whole world stands still  
That's the power of your love  
Mesmerized, I look into your eyes  
I want to feel every hour loving you

You are the love I never knew  
Well, it's true  
I never knew I could love, 'til you  
You are the one who made see  
Made me believe  
I never knew I could you

Until you taught me love was real  
Taught me how to feel  
Thing I never felt before, oh, no  
And now, my heart's an open door  
My life means so much more  
When I hold you in my arms

Oh, you  
You are the love I never knew  
Well, it's true  
I never knew I could love, 'til you  
You are the one who made see  
Made me believe  
I'm telling you now  
There is no love after loving you  
After you

After you  
You are my one and only love  
After you  
Ain't no love after you, whoa...  
After you  
Ain't no love after you  
You are the one I'm dreaming of  
After you  
Ain't no love after you  
You are the one I'm thinking of...
