

I Am Love

Peabo Bryson

They say it comes only once in a lifetime
I've heard it could make your dreams come true
Lately the one, let this be our time
I wanna spend a night loving you

There are men who say only fools rush in
And love's just a crazy game
(Love is just a crazy game)
They let it slip away

I've had enough
This time I'm gonna give you
All I've got
I've passed your way before
But you don't know me
I, I am love
And I love you more
Than words can ever say
More than words can say
Whoa...
I love you more than words can say

Yeah

Everyone says love is joy and sorrow
They say it could make a blind man see
Love me today, but tomorrow
Girl, don't you shed one tear for me

There are men who say only fools rush in
Love, love's just a crazy game
(Love is just a crazy game)
Don't let it slip away

I've had enough
This time I'm gonna give you
All I've got
I've passed your way before
But you don't know me
I, I am love
And I love you more
Than words can ever say
More than words can say, yeah
I love you more than words can say

Whoa-oh-oh-oh-oh...

I've had enough
This time I'm gonna give you
All I've got
I've passed your way before
But you don't know me
I, I am love
And I love you more
Than words can ever say
So much more than words
Ever say, ever say

I love you more than words can say

Once in a lifetime
