

I Want To Be Where You Are

Peabo Bryson

I wanna be around you
Give you love until you're feelin' better
When the world brings you down, whoa...
I'll be there, I'll always be your lover

You satisfy my mind
You make me feel like I'm still alive
If I could only be, whoa-whoa...
Some of the things that you really need
You would stay here with me tonight
Would you stay tonight

I want to be whenever you are
Make love among the stars
Fill your heart with love, with love
Feel the love, love, feel the love
Feel the love, feel the love

I can't believe my eyes, oh-oh-oh...
So much love, I don't know if I'm dreamin'
You make it feel so right, oh-oh-oh...
In my heart, I know just what I'm feelin'

You satisfy my mind, yeah
You make me feel like I'm still alive
If I could only be, yeah, yeah
Some of the things that you really need
You would stay here with me tonight
Why don't you stay tonight

I want to be whenever you are
Make love among the stars
Wanna fill your heart with love, with love
Feel the love, whoa, feel the love
Feel the love, feel the love, oh...

Whoa, I want to be whenever you are
Make love among the stars
Wanna fill your heart with love, with love
Feel the love, whoa, feel the love
Feel the love, feel the love...
