

Love Will Find You

Peabo Bryson

Love is a thin line

Reflections of everything in life
You wondered for
But you're running out of time
You've search for love
Do you really know when you've searched enough
For the love you'll never find
Love is a thin line

You've got to let your feelings show
I don't believe you want me to know, to know

Wishing on a star
With a heart as cold as ice
Chasing dreams and things
In lovers' paradise, yeah
Open up your life
Is there room enough for me
I think what you should do
Is love me naturally

Don't throw it away
What you may need another day, yeah
You should never search for love
Never search for love
Love will find you, oh, baby
Love will find its way tonight

(Love will find you)
In your life
(Love will find you)
Wishing on a star
Is there room for me
(Love will find you)
(Love will find you)

You shine your smile
Do you wanna come and stay awhile
Is it love that's on your mind
That's just your style
It's only passion flowing, soft and wild
Never leave your heart behind
Love is a thin line

You've got to let your feelings show
I don't believe you want me to know, to know

Wishing on a star
With a heart as cold as ice
You're chasing dreams and things
In lovers' paradise, yeah
Open up your life
Is there room enough for me
I think what you should do
Is love me naturally

Don't throw it away
What you may need another day
Yeah, yeah, yeah
You should never search for love
Never search for love
Whoa, love, love will find you
Love will find its way tonight

(Love will find you)
Love, love, love
(Love will find you)
Love, love, love
(Love will find you)

Somebody wanna know how strong
(Love will find you)
Somebody wanna know love
(Love will find you)
Somebody wanna know love, love
(Love will find you)
Somebody wanna know how strong love is
(Love will find you)
Somebody wanna know love
Love will find you...
