

Paradise

Peabo Bryson

Stepped into my life
All of a sudden
The truth came to the light
Now I'm in trouble
Sweet harmony, music fills the air
I can't believe, can't believe
Love has found us here, oh...
She said, pardon me
I sure would love to dance
Tonight is the night made for romance
You got what it takes
Stranger in paradise

Looked into your eyes
Now I'm in danger
Tell me, is it wrong or right
To love a stranger, yeah
My darling, you make me feel the need
Brand new, when you're here with me
Oh-oh-oh-oh, I sure would love to dance
Tonight is the night made for romance
You got what it takes, yeah
Stranger in paradise

Through your eyes, whoa, love shines
Like the stars above, oh, oh...
I realize, this emotion I'm feeling is love
Whoa-whoa, stranger, stranger

Well, I don't know who you are
My head is spinning, yeah
Something moved inside my heart
From the beginning
My darling, you make me feel, feel the need
Brand new, when you're here with me
She said, pardon me
I sure would love to dance, love to dance
Tonight is the night made for romance
You got what it takes, whoa...
Stranger in paradise

In your eyes, oh, love shines
Like the stars above, oh, oh...
I realize, this emotion I'm feeling is love
Whoa-whoa-whoa, stranger

In your eyes, love shines
Like the stars above, oh, oh...
I realize, this emotion I'm feeling is love
Stranger in paradise, paradise

In your eyes, whoa, love shines
Like the stars above, oh, oh...
I realize, this emotion I'm feeling is love
Whoa-whoa-whoa, stranger, stranger...
