

Positive

Peabo Bryson

Come on!
All the way down!
Get up!

Stop feeling sorry
Oh, stop feeling sad
You've got lots going for you
So don't feel so bad
It's time for you to loosen up
'Cause you've been missin' out too much

Just be positive, positive
You should know just what it is
Positive, positive
With the love that you give

Oh, I know what you're thinking
I can see how you feel
All those mixed-up emotions
And what they reveal
It's time for you to move up
Time you had a change of luck

And be positive, positive
You should know just what it is
Positive, positive
With our love we can miss
Whoa...

Been such a long time
Will love be the same
You've got to believe
It can work again
Time for you to loosen up
'Cause you've been missin' out too much

Just be positive, positive
You should know just what it is
Positive, positive
With the love that you give
Whoa, the love that you give

Positive, positive
You should know just what it is
Positive, positive
With our love we can miss

Whoa-oh...
(Positive, positive, positive)
Yeah, positive
(Just be positive, positive)
You should be

Just be positive, positive, positive
Whoa-oh-oh...
Positive, positive, you should be
Just be positive

Oh-whoa-whoa-whoa...

Positive, be positive
Positive, be positive
Positive, be positive

Life is some kind of wonderful
This I guarantee, mmm...
Straight ahead and absolutely beautiful
That's the way it should be
Got to be so very positive
There can be no doubt, no
Beauty, new kind of attitude
We can work it out

Ooh, ooh, oh-whoa, whoa-whoa-whoa...
Attitude, all in the attitude
Whoa-oh-oh...

I know changes are gonna come
Love will get us by
Hold on, you know you're still the one
Keep your head up high
Got to be so very positive
There can be no doubt, no
Beauty, change of attitude
We can work it out...
