

# There's Nothin' out There

Peabo Bryson

Life ain't cheap, you gotta make a move  
Give it up and then find the groove  
Spin those wheels each and every day  
Tempus fugit, don't delay  
Life is rough, yeah, life is mean  
Got to give it up and keep it clean  
The world is up and movin' fast  
Got to grab ahold or you won't last

Midnight's in your blood  
You got fire in your feet  
Shadows tempting you  
To get out there on the street  
When the day turns to night  
And your body feels the heat  
You howl at the neon moon  
Beauty turned to beast

In your eyes  
I see you want to quit, well  
You're hopin' this time  
You might make the pieces fit

Can you give it up  
There ain't nothing out there  
Ain't nothing out there  
Can you give it up  
There ain't nothing out there  
You can't leave it alone  
Can you give it up  
'Cause there ain't nothing out there  
Nothing out there  
Can you give it up  
You can't leave it alone

Hanging with the crowd  
You never learn to give  
Your world is yourself  
This is where you live  
In a world of fantasy  
Some have never seen  
Where dreams become your life  
And life becomes a dream

In your eyes  
I see you want to quit, yeah  
But you say in your mind  
"This is the last time, this is it"

Can you give it up  
There ain't nothing out there  
Ain't nothing out there  
Can you give it up  
There ain't nothing out there  
You can't leave it alone  
Can you give it up  
'Cause there ain't nothing out there

Nothing out there  
Can you give it up  
'Cause there ain't nothing out there  
But you can't leave it alone

Life ain't cheap, you gotta make a move  
Give it up and then find the groove  
Spin those wheels each and every day  
Tempus fugit, don't delay

In your eyes  
I see you want to quit

In your eyes  
I see you want to quit  
But you're hopin' this time  
You might make the pieces fit

Can you give it up  
There ain't nothing out there  
Ain't nothing out there  
Can you give it up  
There ain't nothing out there  
Ain't nothing out there

Can you give it up  
(Oh-oh-oh-oh...)  
There ain't nothing out there  
Can you give it up  
There ain't nothing out there  
Can you leave it alone

Can you give it up  
(Give it up, give it up)  
There ain't nothing out there  
You can leave it alone  
Ain't nothin' out there  
Can you give it up  
There ain't nothing out there...
