

# When We Need It Bad

Peabo Bryson

Yeah

Yeah

You're not telling me something, your eyes can't lie  
You should know by now, my heart is standing by  
When life feels hard and tears fall free  
You gotta lose that load and just lean on me  
We've got love at last, we're not alone anymore  
Let me say the words that you're longing for

When we need it bad  
Baby, ain't it nice to know  
We've got it good  
And it's understood  
When we need it bad  
We can count on one another  
Love will see us through  
You've got it good for me  
And me for you, yeah

Pull the shade on the window and light a fire  
I'll kiss you sweet and kindle your desire  
Come over here, turn out the lights  
I'm gonna make you smile if it takes all night  
There will be other days when I'm the one who calls upon  
And you'll comfort me with your tender heart

When we need it bad  
Baby, ain't it nice to know  
We've got it good  
And it's understood  
When we need it bad  
We can count on one another  
Love will see us through  
Whoa...

You taught me love is made of give-and-take  
You could only think so far before you break  
Well, I've changed so much  
I learned that love can touch  
With just a word or smile  
Come on stay a while, because

When we need it bad  
Baby, ain't it nice to know  
We've got it good  
And it's understood  
When we need it bad  
We can count on one another  
Love will see us through  
You've got it good for me

Whoa, when we need it bad  
It's so good to know  
So good to know  
I believe in you  
I believe in you and me

Whoa-oh-oh, oh...
