

# You Can Have Me Anytime

Peabo Bryson

Here we are in a room full of strangers  
And an open door  
Here we are away from all dangers  
But that open door is calling out again

Acting like a friend who wants to know  
If you might come away  
I wonder what you'll say

On wings of the night  
Once again you'll take flight  
And I don't hear your voice anymore  
Tonight's dream will end  
But I'll stay long after than  
And you can have me anytime

Here we are  
Alone in the shadows of our lonely rooms  
Here we are  
We are hollows, very lonely rooms

Like a faithless child  
Frightened of the wild he runs and hides  
To keep from being still  
We run around until

On wings of the night  
Once again you'll take flight  
And I don't hear your voice anymore  
Tonight's dream will end  
But I'll stay long after than  
And you can have me anytime

Tonight's dream will end  
But I'll stay long after than  
And you can have me anytime
