

You and Your Friends

Peach Pit

Anytime you call me up past one it's not my favourite way to get at the feeling
I've gotten awful lots since tenth grade
Had you locked and leaving
If this could wrap around and through ya
I'll be at the spot up river thought you'd be there anyway, where'd you think we're meeting

Come on let me hear it
Everyone's a villain baby save for you and your friends
I'll be in division, she's freezing in the kitchen
Won't you let me be the best one that you know
But you won't

Anytime you call me up past one it's not a bother kid, later we'll be laughing
Had ya been sitting in my thought again
I'd have seen you passing
If this could wrap around and through ya
I'll be at the spot up river, thought you be there anyway
Where'd you think we're meeting

Come on let me hear it
Everyone's a villain baby save for you and your friends
I'll be in division, she's freezing in the kitchen
Won't you let me be the best one that you know
But you won't

Come on let me hear it
Everyone's a villain baby save for you and your friends
I'll be in division, she's freezing in the kitchen
Won't you let me be the best one that you know
