

## Let's Love

Peggy Lee

Let's be in love with each other  
Tonight is the flight of the butterfly  
Let's love

Show me  
And find it a pleasure to know me  
Tonight is the flight of the butterfly  
Let's love

Come along  
We're all alone  
And if nobody calls us  
We might spend the night on our own, mm-mm

Lover  
Let's be in love and discover  
That night is the flight of the butterfly  
Let's love

Lover  
Let's be in love and discover  
That night is the flight of the butterfly  
Let's love
