

## Faces Of Darkness

Pendragon

Strike the fear from your heart  
You entered this life expecting love

Teach me, help me learn the names  
Of all the birds and reptiles  
Teach me all

I trusted you...  
I trusted

Still growing  
You're a new soul

And it makes my skin crawl

At night, when I think of you  
At night, when I self-harm  
I'm under your spell

Strike the fear from your heart  
The colour in my soul is something I must earn
