

## New Recruit

## Penetration

He said he wanted to be a good soldier  
He said he wanted to fight - be a hero

Military costumes  
In the magazines  
Marching to the drums  
Make real his wildest dreams

Its so dramatic-  
We'll lead you to victory  
Its so exciting  
Don't want to turn back now

Forward into battle  
Face the enemy  
Young ambitious men go marching  
Onto victory  
So far away - fire away!

The blazing colours of battle attracted  
He'll win a medal for his victory

Aiming at the front line  
He is not afraid  
Shooting at the men  
Like ducks upon a range

He said he wanted to be a great soldier  
He said he wanted to fight like his heroes

When you take the sunshine  
You must take the rain  
When you kill the wrong man  
You must take the blame

So far away - fire away!
