

# Stand Strong

Pennywise

We will stand strong  
You can rely on me  
Time will move on  
I'll never go away  
Right what is wrong

Remember you don't have to pray for me today

We will stand strong  
Through all the misery  
Time will move on  
I'll never watch you bleed  
Right what is wrong

Remember you don't have to pray for me today

Everything you want to be is guided by your misery  
you're broken, you're running out of time

Now the worlds turned inside out  
A one way street so full of doubts  
You've fallen into your demise

Scream and shout, turn it inside out  
We're always searching for the reasons why  
And now it's time for you to take what you believe in  
The time is now, i'm taking back what's mine  
There's no need to live your life without a reason  
You've got to live every moment till the day you die

The time has come for you to see that life is filled with levity  
Your choice is to hold your head high  
Emotions they are bleeding out a shinning light to guide you  
Now you're fighting, fighting for your life

Scream and shout, turn it inside out  
We're always searching for the reasons why  
And now it's time for you to take what you believe in  
The time is now, i'm taking back what's mine  
There's no need to live your life without a reason  
You've got to live every moment till the day you die

We will stand strong  
You can rely on me  
Time will move on  
I'll never go away  
Right what is wrong

Remember you don't have to pray for me today

We will stand strong  
Through all the misery  
Time will move on  
I'll never watch you bleed  
Right what is wrong

Remember you don't have to pray for me today

And now it's time for you to take what you believe in  
It's all right there in front of your eyes  
There's no need to live your life without a reason  
You've got to live every moment till the day you die

Till the day you die
