

There's a Place

Per Gessle

I'd give anything
I would give anything
For kind of winds
To leave this winter cold
Appears like needles on our skin
But there's a place
A place that promises
The soft summer day
Behind the grey I swear

I'd feel a change
Hey, will you stay with me
Until the rivers flow free again
And will you follow me
Into a promised land
We've never seen
We'll wear the sun
Like golden blankets
To wrap around our arms
And tip my toes
Into the water's arms
Mmmh

I'd give anything
I would give anything
For kind of winds
To leave this winter cold
Hurting like needles on our skin
But there's a place
There's a place where
Just the two of us can lie
And watch the skies
The star we set on fire
