

Welcome

Perkele

You are welcome to the gig
To drink some beer and sing with us
We raise our glasses in the air
And we hope you will be there

To sing with us and drink some beer
To raise our glasses in the air
To sing with us and drink some beer
We hope you all will be there

You are welcome to the gig
To drink some beer and sing with us
We raise our glasses in the air
And we hope you will be there

You are welcome to the gig
To meet some friends and have some fun
We raise our bottles full of beer
And we hope you all are here
