

# Tough Boys

Pete Townshend

Tough boys, running the streets, come a little closer  
Tough boys, under the sheets you know nobody knows her  
Tough boys, don't walk a-way, I barely nearly missed you  
Tough boys, come over here, I want to bite and kiss you  
...

Tough boys, running the streets, come a little closer  
Rough boys, under the sheets know nobody knows her  
Rough boys, don't walk a-way, I barely nearly missed you  
Tough boys, come over here I want to bite and kiss you  
Oh ho... I barely nearly missed you  
Oh ho... You know I barely nearly missed you  
Rough boy... ah oh yeah

Tough boys, come a little closer  
Rough boys, don't touch her nobody knows her

Rough boys, running the streets, come a little closer  
Rough boys, under the sheets know nobody knows her

Rough boys  
Tough boys, ah  
Rough boys  
Tough boys

Tough boys, running the streets, come a little closer  
Rough boys, under the streets I barley remember  
Rough boys rough boys rough boys  
Rough boys rough boys rough boys  
Rough boys rough boys rough boys  
Rough boys rough boys rough boys  
Your so rough boys
