

Must Be a Fool

Peter Green

You've been drinking and gambling
All night long
Sitting in my kitchen
Now your money's gone
Must be a fool
To give it all away
Must be a fool
Don't come knocking at my door
Must be a fool

You've been running and hiding
Keeping outta sight
Never pay your bills
Always causing a fight
Must be a fool
You'll end up in jail
Must be a fool
Don't come asking me to pay on your bail
Can't you see where it all goes wrong
Must be a fool

I heard your name on the radio
You've been in trouble again
I saw your face on the TV screen
Yes you're in trouble again

Blue lights flashing
Outside your door
People saying
You don't live there no more
Must be a fool
To do what you do
There's a world of trouble
Just waiting on you
You get it wrong
You never get it right
Must be a fool
You get it wrong
You never get it right
Must be a fool
