Petr Kolář

And the shark here... it has sharp teeth and those teeth are plan
e to see
And Macheath here has jackknife but his jackknife stayes unseen
On the blue and balmy Sunday someone drops dead is the strand a
nd a man walks round the corner
People call him Mac the knife
And schmul meier la la la like so many wealthy man
And Maceath took all their money but theres nothing you can pro
ve
Jenny Towler was discoverd with a jackknife in her chrest
And Macheath strolls on the dockside, he knows on more than the
rest
There was a fire down in Soho
Seven children burnt alive
In the crowd there, a man who'd say on...
So don't ask...
It's Mack the knife
And the widow la la la and whose name is known to all when she
woke was vilated
What did Mackie pay for this?
When she woke she was violated
What did Mackie pay for this?
