

Speak 2 Me

Petr Poláček

I've seen the fireworks of life
In the sky
I've also seen your shining eyes
Telling lies
We all have our secrets
Sleeping in the minds
Just another romance in coming on (is coming on babe)

I've seen the sun behind the hills
It healls my soul
The dark horizont drenched my head
I've heard the storm
It's the traffic of the city
That blows my song of love
Each day is new and no one will come back

Touch me
Kiss me
Speak to me
Touch me touch me baby
Kiss me kiss me sweaty
Speak to me speak to me

I've seen the sun behind the hills
It heals my soul
The dark horizont drenched my head
I've heard the storm
It's the traffic of the city
That blows my song of love
Each day is new and no one will come back
