

You Can Only Smile

Petr Poláček

I
I can never go
Never since I saw your face
I can never go
Now
The way my feelings are
I can never show
I can never go

Ref:
You can only smile
You can only hide
You can only smile
I can never try
You can only smile
You can only hide
You can only smile
I can't never try

You
The way you make me feel
It's coming from the heart
Never felt such pain
I
Call out your name
It burns inside my brain
I think I'll go insane

Ref: You can only smile
You can only hide
You can only smile
I can never try
You can only smile
You can only hide
You can only smile
I can't never try
You can only smile
but you can never go
cause i will show you now
From where the cold winds blow
you can never go
but we can never die
you can only smile
