Every moment of every single day
Becomes a testimony to your saving grace
Thank you Jesus for all you've done
Now the Father can call me His son
And the victory's been won

Oh, I really love You
Oh, I really love You
And I want to be where You are
Jesus, bright Morning Star
Oh, I really love You
Oh, I really love You
And I want to be where You are
Jesus, bright Morning Star

That sure salvation that I have gained from You Has changed and rearranged all that I knew When I'm near You my heart's so strong I write the music, but You give the song Let me sing along

And now I want to give back to You what You gave to me And feel the joy of offering all of my love and worship to You
